

About us

SOGELAM is a French-owned company which is located 70 kms from Lyon.

The company settled up as a professional manufacturer and lead marketer of high precision cutting tools and machine knives for over 80 years.

The first workshop was founded in 1918 as a Mechanical Engineering Department of Group CREUSOT LOIRE, became Usinor (one of the mother companies of Arcelor MITTAL Group)

During the years, SOGELAM has become one of the most recognized and powerful brands in cutting tool industry.

The company sells today their products into 4 distinct divisions:

- Metal, Iron, Stainless and steel (Hot and Cold Shear)
- Recycling
- Glass industry (feeder knives)
- Service to Mills (Repair, regrinding shear blades)

Our main technical advantages are :

- High quality alloy tool steels
- Modern heat treatment (Vaccum and Oil)
- CNC Milling machines and grinding machines up to 6 meters long

Not only we have a ton of experience in manufacturing, the best state of art equipment and highly skilled people behind us, but we also provide after-sales service, on-site technical support and logistics services through our worldwide sales network.

SOGELAM supplies all products to customers in Europe, Asia, Middle East and USA.

SOGELAM people are taking time with end users, listening to their needs and concerns, discovering new and better ways to get the job done.

SOGELAM has developed a quality system that meets the requirements of the International Organization for Standardization ISO 9001 since 1999.

SOGELAM

Shear blades solutions for steel mills

IMPRIMERIE SUD OFFSET

**HOT STRIP MILLS
CROP SHEAR BLADES**

Also called flying shear blades or curved crop knives
We supply most of the major hot strip mills in Europe.
Convex, concave, curved with complex shape.

**HEAVY PLATE MILLS
SHEAR BLADES**

Manufactured in a special high alloyed grade
For dividing shear, crop shear, side trimming, scrap shear.
Maximum length is 5,6 meter long even with radius shape.

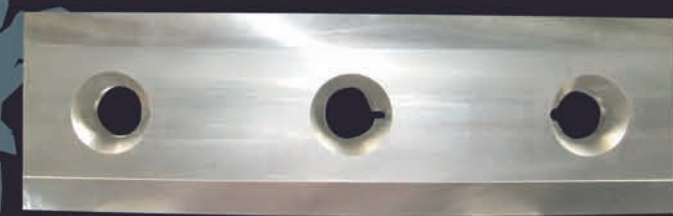

**LAPPED or POLISHED
SLITTER KNIVES**

Used for precision slitting applications
Thickness tolerances to +/- 0.001 mm
Cuts a wide range of ferrous and non-ferrous applications

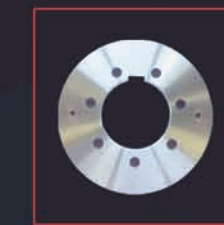

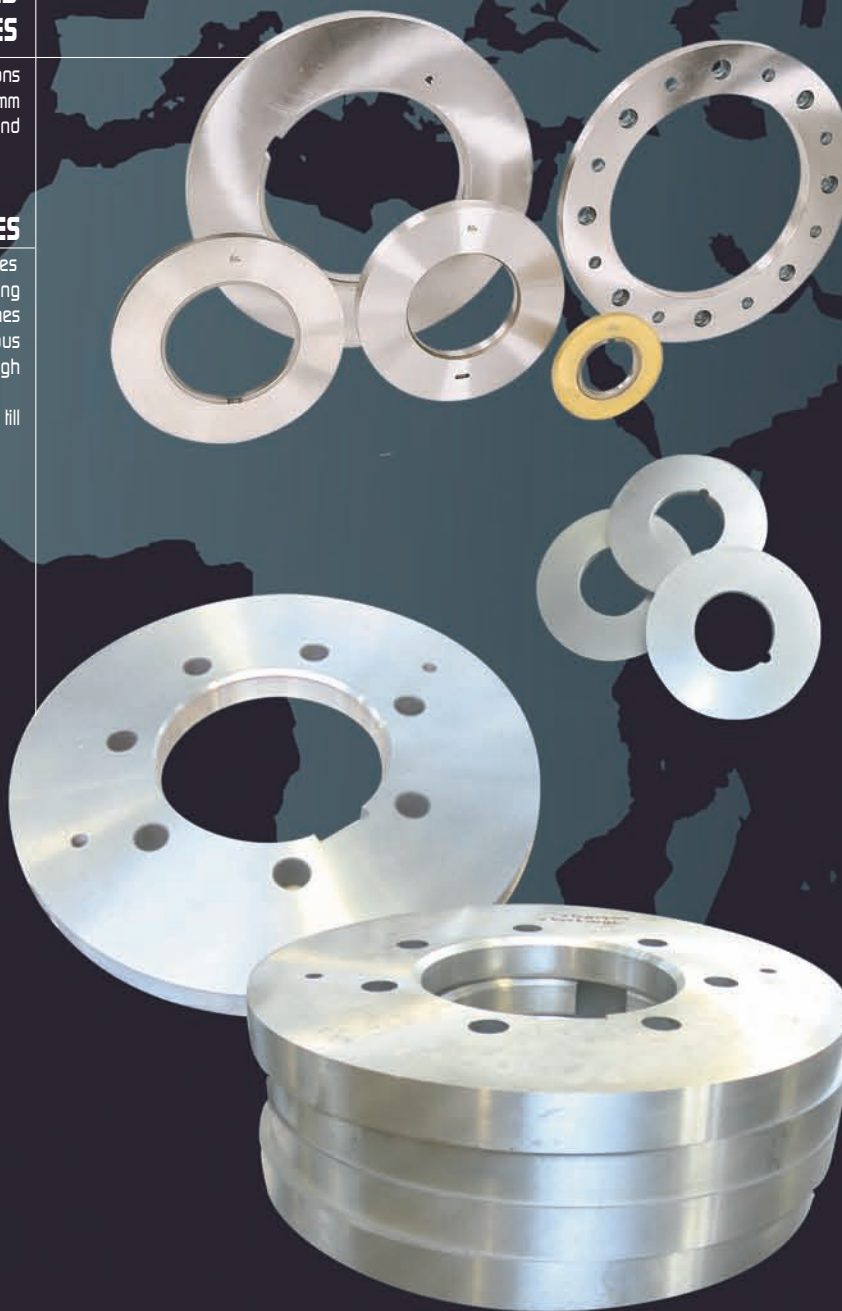

SIDE TRIMMER KNIVES

Available in different alloyed grades
For use in all side trimming applications - Especially Pickle Lines
Cutting applications up to various thicknesses at ambient and high temperatures.
We can produce side trimmers till maximum 1550 external diameter.

**RECYCLING
AND SCRAP SHEAR
KNIVES**

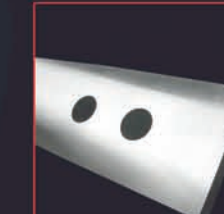

We only supply high cutting strength and toughness with high performance on during life.
Scrap chopper blades for steel mills or recycling industry

Circular knives
Side trimmers and slitting tools

Hot Strip mills
shear blades

Heavy Plate Mills
shear blades

Scrap and recycling
shear blades

Feeder knives for Glass Industry

Services to Mills
Expertise on site world wide, regrinding contracts
